

## Doctoral students

- 1974 Léopold SIMAR (Louvain)  
"The estimation of the compounding distribution of a compound Poisson process"
- 1983 Colette WATERNAUX (Louvain)  
"Zero-sum two-person repeated games of incomplete information: the non-recursive case"
- 1984 Françoise FORGES (Louvain)  
"Systèmes de communication dans les jeux à information incomplète"
- 1990 Françoise LEFEVRE (Louvain)  
"The estimation of the multivariate structural errors-in-variables model without any a priori on the covariance matrix of the errors"
- 1993 Bernard de MEYER (Louvain)  
"Vitesse de convergence des jeux répétés à information incomplète"
- 1993 Hari GOVINDAN (Stony Brook)  
"Stable equilibria: two backward induction properties and an application"
- 1994 Amrita DHILLON (Stony Brook)  
"An axiomatic derivation of a Social Welfare Function"
- 1994 Xiaoqing XU (Stony Brook)  
"Power and private goods"
- 1996 Indrajit RAY (Louvain)  
"Correlation, coalitions and strategic games"  
(joint supervision with Heracles Polemarchakis)
- 2000 Riccardo CALCAGNO (Louvain)  
"Essays in market microstructure"  
(joint supervision with Ron Anderson)
- 2000 Stefano LOVO (Louvain)  
"Price formation under asymmetric information"  
(joint supervision with Heracles Polemarchakis)
- 2001 Francesco DE SINOPOLI (Louvain)  
"Essays on strategic voting"
- 2003 Geoffroy de CLIPPEL (Louvain)  
"Cooperative games: non-transferable utility and asymmetric information"  
(joint supervision with Enrico Minelli)
- 2010 Filippo CALCIANO (Louvain)  
"A theory of games with general complementarities"  
(joint supervision with Pierre Dehez)
- 2015 Federico DE STEFANO GRIGIS (Louvain)  
"Essays on Nash equilibrium refinement"  
(joint supervision with Vincent Vannetelbosch)
