

Jean-François MERTENS: Bibliography

Mathematics

"Applications faiblement compactes sur des espaces $C(S)-\sigma(C(S), \mathcal{M}(S))$ ", *Comptes rendus hebdomadaires des séances de l'Académie des Sciences A-B* 268, 1268-1269, May 1969.

"Mesurabilité dans les espaces vectoriels topologiques", *Comptes rendus hebdomadaires des séances de l'Académie des Sciences A-B* 268, 1342-1344, June 1969.

"Intégration des mesures non dénombrablement additives: une généralisation du lemma de Fatou et du théorème de convergence de Lebesgue", *Annales de la Société Scientifique de Bruxelles* 84, 231-239, 1970.

"On Fatou's lemma in several dimensions", *Zeitschrift für Wahrscheinlichkeitstheorie und verwandte Gebiete* 17, 151-155, 1971 (joint with Werner Hildenbrand - CORE Reprint 72).

"A duality theorem on a pair of simultaneous functional equations", *Journal of Mathematical Analysis and Applications* 60, 550-558, 1977 (joint with Shmuel Zamir – CORE Reprint 321).

"On the density of the extreme points in the unit ball of spaces of type $C(K)$ ", *CORE Discussion Paper* 8123, 1981.

"Essential maps and manifolds", *Proceedings of the American Mathematical Society* 115, 513-525, 1992 (CORE Reprint 1000).

"A measurable 'measurable choice' theorem", in A. Neyman and S. Sorin (eds.), *Stochastic Games and Applications*, Kluwer Academic Publishers, 107-130, 2003 (CORE Reprint 1665).

"Localization of the degree on lower-dimensional sets", *International Journal of Game Theory*, 32, 379-386, 2003 (CORE Reprint 1740).

"Banach families and the implicit function theorem", *Working Paper of the Department of Economics, University of Haifa*, 2011/6, 2011 (joint with Anna Rubinchik).

"Separate control over the local and the asymptotic behaviour in L_p spaces", *Working Paper of the Department of Economics, University of Haifa*, 2011/1, 2011 (joint with Anna Rubinchik).

Stochastic processes

"Sur la théorie des processus stochastiques", *Comptes rendus hebdomadaires des séances de l'Académie des Sciences A-B* 268, 495-496, Mars 1969.

"Sur la théorie des martingales", *Comptes rendus hebdomadaires des séances de l'Académie des Sciences A-B* 268, 552-554, Mars 1969.

"Sur la construction de variables arrêtées d'espérance infinie", *Comptes rendus hebdomadaires des séances de l'Académie des Sciences A-B* 269, 926-927, Novembre 1969.

"Sur l'arrêt optimal dans un processus de Markov", *Comptes rendus hebdomadaires des séances de l'Académie des Sciences A-B* 271, 1970.

"Théorie des processus stochastiques généraux: applications aux surmartingales", *Zeitschrift für Wahrscheinlichkeitstheorie und Verwandte Gebiete* 22, 45-68, 1972.

"Strongly supermedian functions and optimal stopping", *Zeitschrift für Wahrscheinlichkeitstheorie und Verwandte Gebiete* 26, 119-139, 1973.

"Processus de Ray et théorie du balayage", *Inventiones Mathematicae* 23, 117-133, 1974.

"The natural topology on the state space of a Markov process", *Institut de mathématique pure et appliquée* (University of Louvain, Louvain-la-Neuve), 1976.

"The maximal variation of a bounded martingale", *Israël Journal of Mathematics* 27, 252-276, 1977 (joint with Shmuel Zamir – CORE Reprint 309).

"Necessary and sufficient conditions for recurrence and transience of Markov chains in terms of inequalities", *Journal of Applied Probability* 15, 848-851, 1978 (joint with Ester Samuel-Cahn and Shmuel Zamir – CORE Reprint 348).

General Equilibrium

"Integral representation of utility functions, *CORE Discussion Paper* 6825, 1968 (joint with Birgit Grodal).

"Upper semi-continuity of the Walras-correspondence: A probabilistic proof", *CORE Discussion Paper* 7003, 1970.

"An equivalence theorem for the core of an economy whose atoms are not 'too' big", *Econometrica* 39, 713-721, 1971 (joint with Jean Jaskold Gabszewicz – CORE Reprint 103).

"Upper hemi-continuity of the equilibrium set correspondence for pure exchange economies", *Econometrica* 40, 99-108, 1972 (joint with Werner Hildenbrand – CORE Reprint 109).

"An equivalence theorem for the core of an economy with commodity space $L_\infty, \tau(L_\infty, L_1)$ ", in M.A. Khan, and N.C. Yannelis (eds.), *Equilibrium Theory in Infinite Dimensional Spaces*, Springer-Verlag, 189-196, 1991.

"Economies with atoms", in J.-F. Mertens and S. Sorin (eds.), *Game-Theoretic Methods in General Equilibrium Analysis* (NATO ASI Series, Series D: Behavioural and Social Sciences 77), Kluwer Academic Publishers, 47-50, 1994 (CORE Reprint 1099).

"The limit price mechanism", *Journal of Mathematical Economics* 39, 433-528, 2003.

"Cournot equilibrium without apology: Existence and the Cournot inverse demand function", *Games and Economic Behavior* 65, 142-175, 2009 (joint with Isabel Grilo – CORE Reprint 2084).

"Regularity and stability of equilibria in an overlapping generations model with exogenous growth", *CORE Discussion Paper* 2009/5, 2009 (joint with Anna Rubinchik).

"Equilibria in an overlapping generations model with transfer policies and exogeneous growth", *Working Paper of the Department of Economics, University of Haifa*, 2012/5 and *CORE Discussion Paper*, 2012/32, 2012, to appear in *Economic Theory* (joint with Anna Rubinchik).

"Pareto optimality of the Golden Rule equilibrium in an overlapping generations model with production and transfers", *CORE Discussion Paper* 2012/33, 2012 (joint with Anna Rubinchik).

Cooperative Games and the Shapley Value

"A note on the characteristic function of supergames", *International Journal of Game Theory* 9, 189-190, 1980 (CORE Reprint 429).

"Values and derivatives", *Mathematics of Operations Research* 5, 523-552, 1980 (CORE Reprint 435).

"A measure of aggregate power in organizations", *Journal of Economic Theory* 43, 184-191, 1987 (joint with Claude d'Aspremont and Alexis Jacquemin – CORE Reprint 768).

"Stratégies d'entreprises et avantages de la coopération: l'apport de la théorie des jeux", in CORE (ed.), *Gestion de l'économie et de l'entreprise. L'approche quantitative*, De Boeck-Wesmael, 131–166, 1988 (joint with Claude d'Aspremont and Françoise Forges).

"The development of telecommunications: A strategic analysis", in G. Muskens and J. Gruppelaar (eds.), *Global Telecommunication Networks: Strategic Considerations*, 75–104, Kluwer, 1988.

"The Shapley value in the non differentiable case", *International Journal of Game Theory* 17, 1-65, 1988 (CORE Reprint 781).

"Nondifferentiable TU markets: The value", in Alvin E. Roth (ed.), *The Shapley Value: Essays in Honor of Lloyd S. Shapley*, Cambridge University Press, 235-264, 1988 (CORE Reprint 806).

"The TU-value: the non-differentiable case", in J.-F. Mertens and S. Sorin (eds.), *Game-Theoretic Methods in General Equilibrium Analysis* (NATO ASI Series, Series D: Behavioural and Social Sciences 77), Kluwer Academic Publishers, 81-94, 1994 (CORE Reprint 1100).

"Some other economic applications of the value", in R.J. Aumann and S. Hart (eds.), *Handbook of Game Theory* Vol. 3, Elsevier, 2186-2201, 2002 (CORE Reprint 1586).

"A value on 'AN'", *International Journal of Game Theory* 32, 109-120, 2003 (joint with Abraham Neyman – CORE Reprint 1739).

"The ex ante incentive compatible core in the absence of wealth effects", *Econometrica* 70, 1865-1892, 2002 (joint with Françoise Forges and Rajiv Vohra).

Bayesian Games and Repeated Games

"The value of two-person zero-sum repeated games with lack of information on both sides", *International Journal of Game Theory* 1, 39-64, 1971 (joint with Shmuel Zamir – CORE Reprint 154).*

"The value of two-person zero-sum repeated games: The extensive case", *International Journal of Game Theory* 1, 217-227, 1972.

Note on "The value of two-person zero-sum repeated games: The extensive case", *International Journal of Game Theory* 2, 231-234, 1973.

"On a repeated game without a recursive structure", *International Journal of Game Theory* 5, 173-182, 1976 (joint with Shmuel Zamir – CORE Reprint 311).

"The normal distribution and repeated games", *International Journal of Game Theory* 5, 187-197, 1976 (joint with Shmuel Zamir – CORE Reprint 312).

"Minmax and maxmin of repeated games with incomplete information", *International Journal of Game Theory* 9, 201-215, 1980 (joint with Shmuel Zamir – CORE Reprint 433).

"Incomplete information games with transcendental values", *Mathematics of Operations Research* 6, 313-318, 1981 (joint with Shmuel Zamir – CORE Reprint 445).

"Repeated games: An overview of the zero-sum case", in Werner Hildenbrand (ed.), *Advances in Economic Theory*, Cambridge University Press, 175-182, 1982 (CORE Reprint 499).

"Formulation of Bayesian analysis for games with incomplete information", *International Journal of Game Theory* 14, 1-29, 1985 (joint with Shmuel Zamir – CORE Reprint 608).*

"A counterexample to the folk theorem with discounting", *Economics Letters* 20, 7, 1986 (joint with Françoise Forges and Abraham Neyman – CORE Reprint 673).

"Repeated games", in A.M. Gleason (ed.), *Proceedings of the International Congress of Mathematicians*, Berkeley 1986, published by the *American Mathematical Society*, 1528-1577, 1987 (CORE Reprint 788).

Reprinted in T. Ichiishi, A. Neyman and Y. Tauman (eds.), *Game Theory and Applications, Economic Theory, Econometrics and Mathematical Economics*, Academic Press, 73-130, 1990.

"Repeated games", in *The New Palgrave: A Dictionary of Economics*, Vol. 4, MacMillan, 151-153, 1987 (CORE Reprint 788).

"Supergames", in *The New Palgrave: A Dictionary of Economics*, Vol. 4, MacMillan, 551-553, 1987 (CORE Reprint 788).

"Repeated games", Part A: Background material; Part B: The central results; Part C: Further developments, *CORE Discussion Papers* 9420, 9421 and 9422, 1994 (joint with Sylvain Sorin and Shmuel Zamir), to appear as a book at Cambridge University Press.

"The value of information in zero-sum games", 1991 (joint with Olivier Gossner, mimeo).

"Incomplete information games and the normal distribution", *CORE Discussion Paper* 9520, 1995 (joint with Shmuel Zamir).

"The speed of convergence in repeated games with incomplete information on one side", *International Journal of Game Theory* 27, 343-357, 1998 (CORE Reprint 1358).

Stochastic Games

"Minimax theorems for undiscounted stochastic games", in O. Moeschlin, and D. Pallaschke (eds.), *Game Theory and Mathematical Economics*, North-Holland, 83–87, 1981 (joint with Abraham Neyman).

"Stochastic games", *International Journal of Game Theory* 10(2), 53-66, 1981 (joint with Abraham Neyman – CORE Reprint 454).*

"Stochastic games have a value", *Proceedings of the National Academy of Sciences* 79, 2145-2146, 1982 (joint with Abraham Neyman – CORE Reprint 478).

"Nonzero-sum stochastic games", in T.E.S. Raghavan et al. (eds.), *Stochastic Games and Related Topics. Essays in Honor of Loyd Shapley*, Kluwer Academic Publishers, 145-148, 1991 (joint with Thiruvengatachari Parthasarathy – CORE Reprint 912).

"Stochastic games", in R.J. Aumann and S. Hart (eds.), *Handbook of Game Theory* Vol. 3, Elsevier, 1810-1832, 2002 (CORE Reprint 1587).

"Equilibria for discounted stochastic games, in A. Neyman and S. Sorin (eds.), *Stochastic Games and Applications*, Kluwer Academic Publishers, 131-172, 2003 (joint with Thiruvengkatachari Parthasarathy – CORE Reprint 1666).

"Absorbing games with compact action spaces", *Mathematics of Operations Research*, 34, 257-262, 2009 (joint with Abraham Neyman and Dinah Rosenberg).

Non-Cooperative Games and Nash Refinements

"On the strategic stability of equilibria", *Econometrica* 54, 1003-1037, 1986 (joint with Elon Kohlberg – CORE Reprint 716).*

"The minmax theorem for U.S.C.-L.S.C. payoff functions", *International Journal of Game Theory* 15, 237-250, 1986 (CORE Reprint 718).

"Stable equilibria - A reformulation. Part I. Definition and basic properties", *Mathematics of Operations Research* 14, 575-625, 1989 (CORE Reprint 866).

"Stable equilibria - A reformulation. Part II. Discussion of the definition and further results", *Mathematics of Operations Research* 16, 694-753, 1991 (CORE Reprint 960).

"Extensions of games, purification of strategies and Lyapunov's Theorem", in J.Jaskold Gabszewicz, J.F. Richard and L. Wolsey (eds.), *Economic Decision Making: Games, Econometrics and Optimisation. Contributions in Honor of Jacques Drèze*, North Holland, 233-279, 1990.

"Equilibrium and rationality: Context and history-dependence", in K. Arrow (ed.), *Issues in Contemporary Economics, Vol 1: Markets and Welfare*, Proceedings of the 9th World Congress of the IEA, Mc Millan, 198-211, 1991.

"The small worlds axiom for stable equilibria", *Games and Economic Behavior* 4, 553-564, 1992 (CORE Reprint 1015).

"Correlated- and communication equilibria", in J.-F. Mertens and S. Sorin (eds.), *Game-Theoretic Methods in General Equilibrium Analysis* (NATO ASI Series, Series D: Behavioural and Social Sciences 77), Kluwer Academic Publishers, 243-248, 1994 (CORE Reprint 1103).

"Two examples of strategic equilibrium", *Games and Economic Behavior* 8, 378-388, 1995 (CORE Reprint 1137).

"Perfect correlated equilibria", *Journal of Economic Theory* 68, 279-302, 1996 (joint with Amrita Dhillon – CORE Reprint 1197).

"An equivalent definition of stable equilibria", *International Journal of Game Theory* 32, 339-357, 2003 (joint with Hari Govindan – CORE Reprint 1737).

"Ordinality in non cooperative games", *International Journal of Game Theory* 32, 387-430, 2003 (CORE Reprint 1738).

Social Choice

"Correlated effectivity functions", *Economics Letters* 30, 97-101, 1989 (joint with Joseph Abdou – CORE Reprint 874).

"An impossibility theorem with von Neumann-Morgenstern preferences", *Economics Letters* 56, 305-309, 1997 (joint with Amrita Dhillon – CORE Reprint 1292).

"Relative utilitarianism", *Econometrica* 67, 417-498, 1999 (joint with Amrita Dhillon – CORE Reprint 1398).

"Intergenerational equity and the discount rate for policy analysis", *Macroeconomic Dynamics* 16, 61-93, 2012 (joint with Anna Rubinchik – CORE Reprint 2438).

* Paper reprinted in S. Hart and A. Neyman (eds), *Games and Economic Theory. Selected contributions in Honor of Robert J. Aumann*, The University of Michigan Press, 1995.
