February 2019

Contents:

1. Research monographs
2. Research papers published in refereed scientific journals
3. Book chapters
4. Research papers published in proceedings of conferences
5. Edition of Collective works

1. Research monographs

2. Research papers published in refereed scientific journals

3. Book chapters

Rheology, 167-195 (2003)

4. Research papers published in proceedings of conferences

[P32] T. Lacroix, R. Keunings, Finite Element Modeling of the Mechanical Load Transfer at the Fibre/Matrix Interface Including Interfacial Friction and Non-Linear

5. Edition of Collective works

Simulation Numérique d'Ecoulements à Surfaces Libres de Fluides Viscoélastiques, Université catholique de Louvain, Belgium (1982) Advisor: Prof. M.J. Crochet
